

# Navigating the evolving care of hemophilia patients

## ONE SIZE DOES NOT FIT ALL

### THE EVOLUTION OF THE TREATMENT LANDSCAPE FOR HEMOPHILIA

The increase in the number of available therapies has improved patient's quality of life

Treatment decisions now take into considerations patients' preferences and life goals

### LIVING WITH HEMOPHILIA

Bleeding events and pain management are major limiting factors for patients

Growing up with hemophilia can make patients feel isolated

Patients are still learning how to live with their condition while receiving treatment

### SHORT- VS LONG-TERM OUTCOMES

The rates of bleedings are decreasing with novel therapies

Physical examination and ultrasounds are key to follow patients in the short-term

In the long-term, this improvement should be associated with joint health status
